BEST YARD

The Best Yard honored in July is unit #165. There is a small raised bed in the front with angel figurines, roses and solar lights. The area below is covered with white rock. The property is neat, clean and weed-free, including the driveway.

The home itself also looks very nice. It is painted light brown with some dark brown trim, and white-trimmed windows. All-in-all, an attractive, well-cared-for unit.

MEETING ADJOURNED at 2:49 PM

Respectfully Submitted, Joleen Gonser, Acting Secretary

WEEDS AND SEEDS

Although many owners are keeping their yards in good condition, there are still some who are not. As we travel around the Park, we still are finding some unattractive, weed-infested yards. First of all, this is a violation of Park rules. Secondly, consider this: weeds produce seeds, lots and lots of seeds. Now where do these seeds go? We all know that many of them find their way into our neighbors' yards.

Weeding is a never-ending task, and it has to be done on a regular basis. If you do not want to do it yourself, then we ask that you hire someone to do it for you. Not doing either is unacceptable. — Ron Maurice

DOGS AND THE HEAT — A BAD COMBO

Now that we are entering the hot time of the year, the ASPCA warns that it is not a good idea to walk Fido during the warmest time of the day. Dogs can easily get over-heated.

Another thing to consider for Kearney Lodge residents is that our Park's asphalt roads get very hot during the summer and a dog's feet can get burned.

The ASPCA says that it is best to walk the dog in the cool of the morning and/or in the evening. Keep out of the heat. — Ron Maurice

PEDESTRIAN WALKWAY

A few years ago, the Park owner spruced-up the front entrance of the Park and provided a pedestrian walkway adjacent to the street. In spite of this, we continue to see pedestrians walking in the street at the front entrance instead of using the pedestrian path.

I have seen pedestrians almost getting hit by a car near the front entrance. We hear in the news almost daily about pedestrians getting hit. There are a lot of bad drivers out there, folks. When walking, let's be extra careful about approaching vehicles and stay out of the way as much as possible. — Ron Maurice

**HELP FOR YOUR
PRESCRIPTIONS**

Did you know that there are
programs to help people pay
for prescription medicines?

You may be able to get "Extra Help" from Medicare to pay for your prescription drug premiums and costs. This program is also called the "Low-Income Subsidy" or LIS. People whose yearly income and resources are below certain limits can qualify for this help. To see if you qualify for getting Extra Help, see Section 8 of your *Medicare & You 2018* handbook or call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048. You can call these numbers for free, 24 hours a day, 7 days a week. You can also call the Social Security Office at 1-800-772-1213 between 7 a.m. and 7 p.m., Monday through Friday. TTY users should call 1-800-325-0778. You can also call the state Medicaid Office.

Help from the State Pharmaceutical Assistance Program.

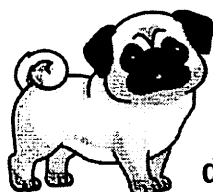

Many states have State Pharmaceutical Assistance Programs (SPAPs) that help some people pay for prescription drugs based on financial need, age, or medical condition. Each state has different rules. With you State Health Insurance Assistance Program (SHIP). The name and phone numbers for SHIP are in Chapter 2, Section 3 of your *Evidence of Coverage*. (Your Editor does not have these programs and can only give you generic information.)

~ BE A FRIEND TO YOUR DOG ~

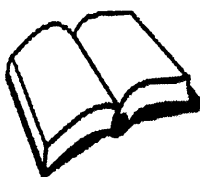

PLAY!. GO ON WALKS TALK TO YOUR DOG LOVE YOUR DOG

GIVE YOUR TIME — You are the center of your dog's world. You may be tired after a long day at work, but your dog has spent the day anxiously awaiting your return. Reward that loyalty with your time. Pet him, talk to him, play with him, laugh with him. Let your dog know you value his company.

GET ANOTHER ONE! Dogs are pack animals and generally enjoy the company of other dogs. Your dog may benefit from having a companion to play with. Be as conscientious about getting a second dog as you were about getting the first; multiple dog ownership isn't for everyone, and some dogs do better as an "only."

DON'T LET YOUR DOG DOWN — You aren't a dog owner just at Christmas, or on the weekends, or in the afternoon, or in spare time but all the time. MUCH more, and in detail at: <https://www.akc.org/expert-advice/lifestyle/responsible-dog-owner/#friend>

A HEADS-UP ON BIKE HELMET SAFETY

What you need to know about choosing a bike helmet and making sure it fits —

May 03, 2018 Illustration: Chris Philpot

A bike helmet is a cyclist's best line of defense against severe head injuries, such as a skull fracture — and, when it's sitting on your head correctly, it could save your/your child's life.

Making sure your helmet fits properly isn't as simple as picking up a size small, medium, or large. Use our expert fit guide to ensure you have your helmet strapped on correctly before hopping on your bike.

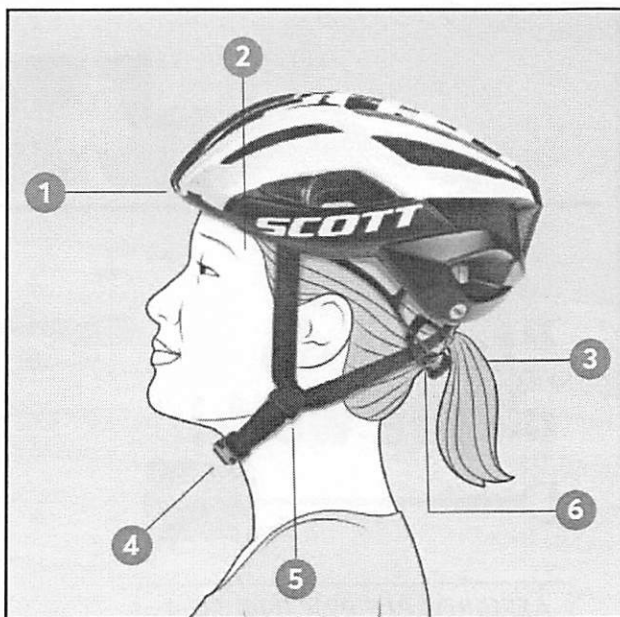

Always replace your bike helmet after a crash:

It's designed to withstand only a single impact. The front edge should be no more than one (1) inch above your eyebrows. With the straps done, push up firmly on the front edge of the helmet. If it moves back, the straps are too loose.

1. Push the helmet side to side and front to back: It should be snug enough that the motion wrinkles the skin at your temples.
2. A ponytail can alter your fit, so make sure to test a helmet wearing the same hairstyle you ride with.
3. To test that a buckled chin strap is tight enough, open your mouth halfway; the helmet should press down on the top of your head as you do.
4. The front and back straps should make a V that meets just below and forward of the ear.
5. Grab the back tip and try to pull it up over the top of your head to the front. If the front of your helmet slips down, shorten the back straps.

This applies to all bike riders — men, women and all ages of children.
