We all are concerned with the speeding and safety of our children, and we need to help management more involved in solving the problem.

Management has always tackled all problems head on, and we appreciate their support.
(LET'S PROTECT OUR CHILDREN.)

Any resident that sees anyone running a stop sign or speeding in the park should notify management immediately, this includes FedEx, Amazon, UPS, etc. If you see something, follow them to their unit, then make a report to management, including their vehicle plate number, unit number, and infraction. Don't confront them.

If you need help completing a report form, contact a Board member or Neighborhood Watch member for assistance. I will set up a meeting with management as soon as possible to discuss the problem and solve it.

Now some good news; we are resuming our monthly KLCC meetings starting on June 12th in the Clubhouse at 2 pm. There will still be some regulations; wearing of mask and the 6 ft. distance will stay in effect, subject to State changes.

KEARNEY LODGE RESIDENTS ARE HELPING SAN DIEGO CITY and COUNTY

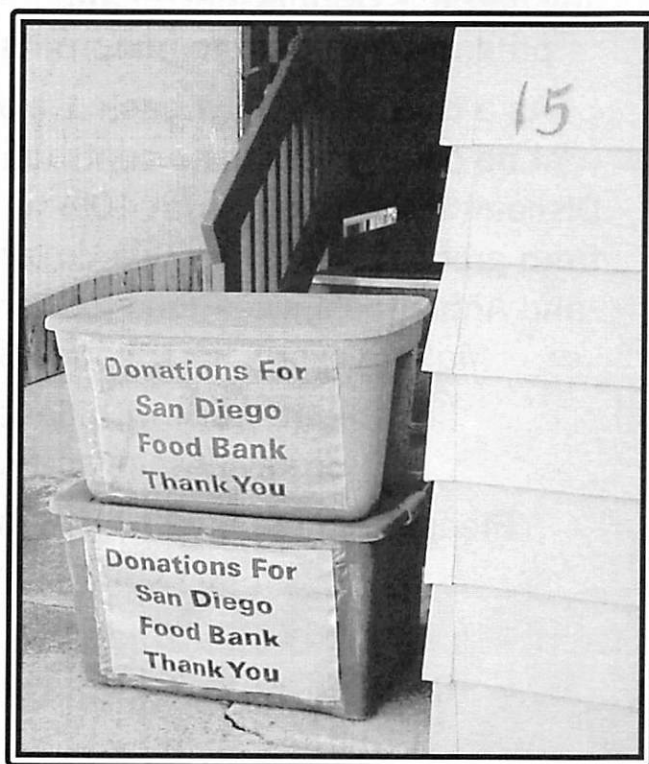

Dear KL residents, June will be my final month to take donations. I'm going back to work.

I want to thank everyone for your contributions. In the last 14 months K L residents have donated 4000 pounds of food resulting in over 8000 meals. (K. L. residents donated 390 pounds of food in May.)

If anyone would like to continue with the food donations, please contact me at 858-829-1531. The San Diego Food Bank is located in Miramar not far from here. If anyone can take over, I can join you on your first trip.

Thank you so much, Michelle.

PLEASE REMEMBER THE MANY PEOPLE WHO STILL RELY ON THE SAN DIEGO FOOD BANK.

NATURAL APHID SPRAY

There are many varieties of aphids and they feed on a wide range of plants, giving them yellowing, distorted leaves, affecting growth and in severe cases, even killing the plant. Ladybugs are their natural predator but since most gardeners don't have ladybugs on hand, a natural aphid killer is the next best thing, and the most convenient too.

INGREDIENTS:

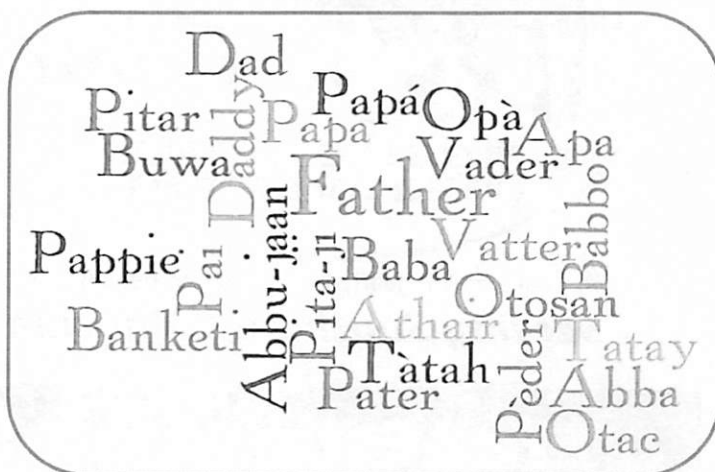

- 3 tbsp organic dish soap (soap will dissolve the waxy coat on aphids, dehydrating them without harming the plant)
- 8 oz. tap water
- spray bottle

DIRECTIONS:

- Mix ingredients in the spray bottle and give it a good shake.
- Generously spray the plants on the affected areas and including the underside of leaves. Leave on overnight. Hose down the plants the next day, making sure the water flow won't damage the plants. Let the plants air dry.
- Lightly mist the solution again after drying. You should see your plants getting back to a healthy green color within a few days, up to a week (that is if they weren't already killed by aphids before the treatment was applied).

NOTE: you may need to repeat the process if you are fighting a big infestation! Just check your plants regularly and repeat at the first sign of infestation.

BEST YARD OF THE MONTH for MAY 2021 — #2

The Best Yard selection for May, featured in this June issue, is Unit #2. It is a single-wide gray unit with brown trim, and a California room on the left side.

On the right side is a clean driveway. The front contains a garden window with about a half dozen plants. Also in the front is an assortment of plants, patio stones and ornaments.

On the left side is a small tree and various plants, some potted and some ground-planted. Some are on a concrete slab, others on brown mulch. There are also patio stones in this area. The yard is clean and weed-free. Unit #2 makes up the center part of Units 1 through 3, which are all very well done!

Ron Maurice, VP
