Here are some things of interest from the State of California concerning the COVID-19 Vaccines. There is more information to be found on the CA Website.

STAY SAFE!

COVID-19 vaccination is one of the most important tools to end the COVID-19 pandemic. The State is prioritizing vaccines for equitable distribution to everyone in California who wants it. We expect to have enough supplies to vaccinate most Californians in all 58 counties by summer 2021.

COVID-19 VACCINES ARE HERE

The U.S. Food and Drug Administration (FDA) issued Emergency Use Authorizations (EUA) for two COVID-19 vaccines. More vaccines may be authorized early this year. Learn more about FDA's Emergency Use Authorization for Vaccines and watch a video about what an EUA is.

VACCINE SAFETY IS A TOP PRIORITY

COVID-19 vaccines authorized by the FDA have been shown to be safe and effective in clinical trials. The U.S. vaccine safety system ensures that all vaccines are as safe as possible. Learn how the federal government is working to ensure the safety of COVID-19 vaccines. To ensure the COVID-19 vaccine meets safety requirements, California formed a Scientific Safety Review Workgroup of experts, which has confirmed that the COVID-19 vaccines authorized by FDA are safe and effective.

WHEN CAN I GET VACCINATED?

California is distributing and vaccination providers are administering the vaccine as it becomes available. California will be transparent, careful, and equitable in its vaccine distribution. Initially vaccine supply will be very limited. At first, vaccines will be provided to healthcare workers and long-term care residents in accordance with the CDPH Allocation Guidelines.

CALIFORNIA'S COVID-19 VACCINE PLAN

After healthcare workers and long-term care residents, the next to be vaccinated will be individuals who have higher risk for severe disease or death (due to age or other factors), who are unable to work at home, who live or work in geographic areas that have been highly impacted, or who are most likely to spread disease to other workers or to the public.

These individuals will be prioritized as follows:

PHASE 1A - About 3 million people

- Healthcare workers
- Long-term care residents — See CDPH Allocation Guidelines for Phase 1a.

PHASE 1B residents — TIER ONE:

- Individuals 75 and older
- Those at risk of exposure at work in the following sectors: education, childcare, emergency services, and food and agriculture

HOW VACCINE DECISIONS ARE MADE

A group of experts and a group of community representatives work together to make sure vaccines are prioritized fairly.

DRAFTING GUIDELINES WORKGROUP

A Drafting Guidelines Workgroup is developing California-specific guidance for the prioritization and allocation of vaccines when supplies are limited. See CDPH's [Workgroup page](#) for the vaccine's phasing and resource materials.

COMMUNITY VACCINE ADVISORY COMMITTEE

The Community Vaccine Advisory Committee is providing input and feedback to the planning efforts and resolving barriers to equitable vaccine implementation and decision-making. See CDPH's [committee activities page](#) for the upcoming meeting schedule and all meeting materials.

HOW COVID-19 VACCINES WORK

Vaccines help our immune system fight infections in the future. COVID-19 vaccines will protect us from the virus that causes COVID-19 without having to get the illness. It typically takes a few weeks after the last dose in a series to become fully protected. On the days after taking the vaccine, you may have a sore arm, aches, fatigue or fever, but these are not harmful. These symptoms signal that your immune system is developing protection from the virus.

BENEFITS OF GETTING VACCINATED

COVID-19 vaccines are meant to prevent you from getting COVID-19 and from spreading it to others. The ability of COVID-19 vaccines to protect us from spreading the virus to others is not yet known but is being studied carefully.

SPREAD THE NEWS ABOUT COVID-19 VACCINES

Share the news that vaccination against COVID-19 is here. Visit the [COVID-19 Response Toolkit page](#) to find images and videos you can post on social media. If you are a health-care worker, contact your employer. If you are a Long-Term Care Facilities (LTCF) resident, contact your caretaker. In many parts of the state, CVS and Walgreen pharmacies will administer the vaccines to residents in long-term care and staff. **Everyone else should coordinate with their healthcare providers.**

A NOTE FROM YOUR TREASURER

Because we have not been able to hold a regular meeting, I wanted to give you a brief financial update.

We received a very generous donation that we are grateful for. The board of officers voted to make a donation to the food bank as a way to pay it forward.

We currently have \$2,634.70 in the bank. All vendors are up to date with their payments and the only expenses have been the cost of printing "The Connector".
